bright ideas
in web and graphic design

Who We Are

1879 media was created to establish innovative concepts and bright ideas in web and graphic design. We believe in hard work, good design, and rewarding success with a cookie. Each project is unique and we begin our approach with that in mind. We'll go there - make it happen - bring to life your imagination's fancy.

With a desire to awe you and the world, we focus on making great, lasting impressions and enjoyable user experiences. 1879 media continues to evolve and sustain knowledge of current trends and techniques in the design industry, ensuring success and the highest satisfaction of our clients.

fun fact!

What's in a name?

1879 is the year the first incandescent light bulb was invented. Since then, the light bulb has often been a symbol of an ingenious thought, brilliant idea, and the creative process.

interesting...

78% of consumers trust **peer recommendations***;
only 14% of consumers trust advertisements.

**get people talking about your business with a new website!*

Over 1.7 billion people are online today,
compared to 10 million in 1998.

Behold the power
of the internet!

Benefits of a Website

Websites are an excellent way to share information with *whoever, whenever, wherever*. Today, users are seeking polished and unique designs that entertain and engage, as well as provide them with details and info they need. A successful website design can help you to create an identity, separate you from the rest, and broaden your market in an affordable way.

What We Do

We offer a number of services, ranging from personal blogging websites to complex web experiences and print solutions. We are always excited about new projects and creating individual plans that are tailor-made to suit the client's needs. Our services include, but are not limited to:

Web Development

Branding

**Photography
and more**!**

****if there's something you don't see mentioned here, just ask us!**

a few other neat things to know...

- ✓ The search engine Google logs over 2 billion searches daily - equating to roughly 300 million users per day.
- ✓ The fastest growing Facebook segment is 55-65 yr old females
- ✓ Wikipedia has over 13 million articles and some studies show it's more accurate than Encyclopedia Britannica
- ✓ More than 1.5 million pieces of content (web links, blog posts, photos, etc.) are shared on Facebook daily

*begin with a
few ingredients*

*throw in some
brilliance*

*VOILA!
a bright idea!*
